Infor Point.Man

About Synesis

With 25 years of experience as a business systems consulting and integration firm, we strive to be the leader in custom integration. Synesis understands manufacturing, operations and technology requirements. This fundamental difference in experience and perspective enables us to provide valuable solutions with proven results.

Consulting & Support

Whatever your Syteline needs are — we have you covered.

Custom Programming & Integration

When you need more than just an out-of-the box solution.

Training & Development

Get the most out of your Infor Syteline product.

Why Choose Us?

Synesis International, Inc. has been a Pivotpoint, MAPICS, and Infor Partner since 1996 and provides software and services in support of Point.Man (MAPICS ERP for Extended Systems) ERP system. Our team has over 75 years of combined Point.Man experience. We provide full implementations, training, custom extensions, reporting, barcoding, EDI, systems infrastructure, and general manufacturing/business consulting.
